

Civil Engineering Applications

BB WATER 4017

Rapid walk-on time
Excellent esthetical properties
Adhesion on wet concrete
Good UV durability
Very good scratch resistance

Gardner 2-3
Viscosity 8000
Solid % 60
PHR (EEW190) 120

Applications

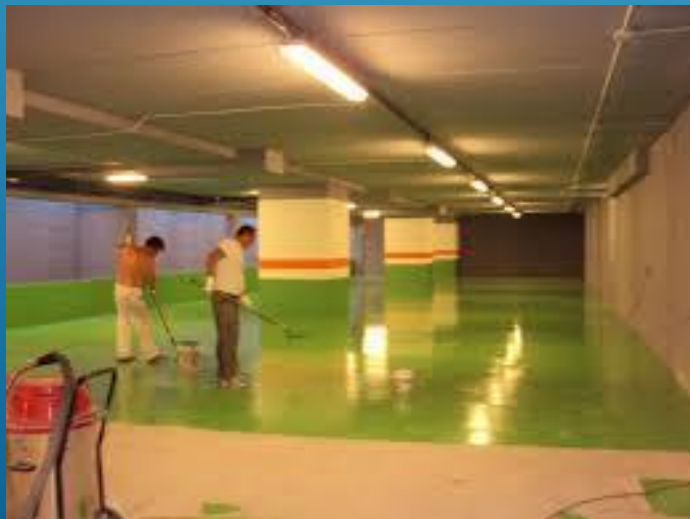

- Pigmented concrete coatings 100-300 μm
- Primers for damp and wet concrete

BB WATER 4018

Cost-effective concrete protection
Fast dry time
Excellent esthetical properties
Adhesion on wet concrete
Good UV durability
Very good scratch resistance

Gardner 3-4
Viscosity 10-15 Pas
Solid % 50
PHR (EEW190) 150

Applications

- Pigmented concrete coatings 100-300 μm
- Primers for damp and wet concrete

BB AMINE 3048

Fast dry time at ambient and low T
Cost effective
No amine blush
Very good mechanical and chemical resistance

Gardner 3
Viscosity 200-500
Solid % 100
PHR (EEW190) 50

Applications

- Non colour sensitive application
- General industrial floorings for concrete protection
- Primers and mortars

BB AMINE 3009

Cost effective
Medium dry time at
ambient and low
Temperature
No amine blush

Gardner 2
Viscosity 200-400
Solid % 100
PHR (EEW190) 60

Applications

- Industrial floorings
- Primers
- Mortars

BB AMINE 3033

Long pot life

Good yellowing resistance

High resistance to carbamation and water spotting

Very good mechanical and chemical resistance

Free from alkyl phenols and Bisphenol-A

Gardner 1
Viscosity 200-300
Solid % 100
PHR (EEW190) 50

Applications

- Industrial floorings and coatings
- Chemical
- Decorative floorings
